Unpaid taxes? Unfiled returns? IRS levies?

Here's great news for your clients who face serious tax problems

A recognized expert can often stop all IRS collection activities IMMEDIATELY
and help you get your client's affairs in order

Dear fellow professional,

As you know, the self-employed – farmers, fishermen, small business owners and other entrepreneurs – are the backbone of the American economy. But like many honest, hard-working people, they can fall behind – sometimes way behind – on their federal and state taxes.

That can mean levies, fines, penalties, garnished wages, seized assets as well as other IRS and state collection activity.

Help is on the way

My name is **G. David Brimmer**. I'm a tax consultant who, over the past 30 years, has become a recognized expert in settling these kinds of cases. I'm proud to say my team and I have earned a **99% success rate!**

We've discovered there is often some question about the amount of your client's actual tax liability, or whether the IRS can collect the full amount without inflicting serious hardship.

In some cases, the IRS will reduce or eliminate your client's tax liability, and forgive all penalties and interest.

Aren't those the kinds of results you want for your clients? I think your answer is a resounding **“YES!”**

“A recognized expert... In every case, Dave has conducted himself honorably and as a true professional. If you're concerned about him trying to lure away your clients, you can put your mind at ease. He not only hasn't taken any clients, he's sent several our way.”

John F. Conley, CPA, MST, McCallum & Conley, Portland, ME

Luckily, you don't have to take precious time away from your practice, or immerse yourself in arcane sections of the tax code. My team and I are specialists. We'll do it for you. Just call me toll-free **1-877-Tax Relief**.

Why G. David Brimmer & Associates?

When complex tax liability issues arise, your clients need professional, expert representation. We've been untangling these kinds of knotty tax problems since 1973. We were pioneers in

the use of **Offers in Compromise** to help overburdened taxpayers. As you know, an OIC is an agreement between a taxpayer and the IRS that resolves the taxpayer's tax liability, often for just pennies on the dollar. My team's expertise and negotiating skills have earned us a 99% success rate!

With over 30 years experience, we're well qualified to represent your clients, and negotiate with the IRS on their behalf. Questions? For a free initial consultation, I invite you or your clients to call me toll-free at **1-877-Tax Relief** (1-877-829-7354).

"I've referred a number of clients to G. David Brimmer and would recommend him without hesitation. He negotiates with the IRS and the State to reduce clients' tax liability, stop all collection activity, and get their financial affairs in order. In every case, the client has benefited." Jeffrey S. Worthing, CPA, Worthing & Going, Scarborough, ME

Our services are fast and convenient, too. We return client and referral calls within 24 hours. We can usually handle everything by phone and fax – saving you and your clients countless hours of unnecessary travel and meeting time.

Look at these results:

- 💰 After the Internet bubble burst, one dot com executive owed nearly \$1 million in taxes. With our help, he settled with the IRS for just \$1200, spread over 24 monthly payments.
- 💰 An Alaskan fisherman owed over \$265,000. His settlement? Only \$8500.
- 💰 A Maine truck driver owed \$80,000. We negotiated it down to \$500 — less than 1%!

While these results are not necessarily typical, they do show what we've been able to achieve. Many clients will pay only 20-25% of their IRS debt. Some will pay 10%, some even less.

"Exceptionally helpful... (His) agreements on behalf of my clients well exceeded expectations. His work has always been done in a timely manner and at... a very reasonable cost." Diane Dusini, Esq., Mittel Asen, Portland, ME
